5. Expertise and research interests

5.1. Main research orientation (within the last 5 years)

I have been involved in ICAS (Institute for Global Change Adaptation Science, Ibaraki University), which was established in 2006, and engaged in research and education related to sustainability science from the standpoint of social psychology. I approach from the human science point of view on adaptation to climate change, focusing not only on scientific knowledge but also on knowledge possessed by lay people. I also preside over disaster education workshops to think about how to protect one's life against the escalating disasters.
